

Husillos & Santos, flashing duel in Madrid

Days keep going and the Meeting Villa de Madrid discounts days to be the athletics indoor center again. The Gallur pavilion will receive many stars next 8th february for this meeting expecting great moments.

After the announcement of the participation of the world and European champion Dafne Schippers, we can announce today a duelo ver 45 seconds. The spaniard Oscar Husillos, with a PB in 45.69, is one of the 400m world top athletes and is going to be one of the stars to illuminate Madrid. But he's not going to be alone. The dominican Luguelin Santos, with PB 45.80, is also going to be in the start list. They both have compited among themselves, for example last year in the Madrid Meeting in summer, but they've not met again in an indoos championship since they ran the 400m final of the last World Indoor Championships in Birmingham. In that race both finished with DQ after entering first and second in the finish line. Madrid is the best place to them to meet again.

But there will be even more top athletes in that event. The also spaniard Lucas Búa, one of the 4x400 spanish team, wants to begin this winter season in the best way. His 46.23 as PB are great standings but sure he wants to improve even more. Other international athletes will take part in this 400m with the young Kennedy Luchembe (Zambia), with PB in 45.76, and Nathan Strother (USA) with 45.56 as two good examples.

Just live it!
